

RG104 Entry 2

Folder 3

1803-1809

“BOULTON CORRESPONDENCE.” 1796-1838.

Chiefly letters from and drafts of replies to Mathew R. Boulton of the Soho Mint, a private institution in England, which supplied the United States Mint with copper coin blanks. The letters dated after 1808 are signed “M. Robinson Boulton.”

Included are a letter of January 1, 1843, from the agent of the Soho Mint (the Boulton Mint) to the Director of the Philadelphia Mint relating to mint operations after the death of Mr. Boulton, and a report of May 15, 1836, from the Philadelphia assayers regarding the use of silver tokens for currency and referring to the Soho Mint.

Originally this series was a part of the correspondence described in entry 1. The correspondence is arranged chronologically. For copies of other letters sent to Mr. Boulton, see entry 3.

Elias Bondine Esq. Scho near Birm Sept 17th 1803
 Sir

Agreeably to my advice of the 27 July
 (of which you have sent me a duplicate) I have completed
 your order of the 10th March. the amount of the amount due
 being £2556. 3. 6 is at the Office of the United States of America
 trusting you will find the same right that they will be found to
 answer your purpose.

From all appearances Copper is likely
 to advance at Christmas next to £140 per ton from which price I
 fear it will not go back in a hurry. as many deep mines have
 gone up working & also the price of labour & fuel for smelting
 the ores are much advanced. hoping to hear of the safe arrival
 of the former & present shipment I am very respectfully

Sir
 Your most Obedient Servant
 for Nathaniel Bondine
 W. D. Brown

Invoice of 34 Casks & 1 Case of Copper Planets for Cash
 of 72 Cents each from London to Liverpool to be shipped from there
 on Board the Newton John Riley Master of Philadelphia
 Consigned to Elias Bondurant Esq^r Director of the Mint in
 and West of the United States of America from M^r Boulton
 Soho new Birmingham Aug^r 14. 1803

Sir

Agreeably to your order expressed in your favor
of the 10th March I have prepared & shipped on board the Bristol
Packet John Phillips, Master bound for Philadelphia & expected
to sail in all this month from Liverpool 95 casks of Occidentals
in bales & packages, the amount of insured I enclose £2554. 5. 3
which sum is at the order of the United States of America which trust
you will find right & that they will meet your approbation.

The other half and in hand & will be soon
ready to send of the price of sugar has been the same for the present
running the last quarter but it is expected to rise in Philadelphia.
It is with great sorrow I regret you ordered in again at war
with France in consequence you will perceive a war only in the
present situation.

In my Letter of the 1st March to A. R. D. Esq.
I acknowledged the Receipt of Bills. £2003. 6. 3 which I am
convinced is a full balance previous to the present Invoice of
which I return you my sincere thanks I am very respectfully

Yours most obliged & obedient servant
W. M. Boulton

Packet John Phillips, Master bound for Philadelphia & expected to
sail in all the month from Liverpool 95 casks of Blankets in
casks of 12 each, the Amount of annexed Invoice £2354. 5. 3
which I am at the Order of the United States of America which trust
you will find right & that they will meet your approbation.

The other half are indeed ready to be soon
ready to send off: the price of Copper has been the same for the present
running & the last quarter but it is expected to rise in Michaelmas,
it is with great sorrow I acquiesce you England is again at War
with France in consequence you will perceive a War Duty on
the present Shipment.

In my Letter of the 1st March to Benjⁿ
Rush Esq. I acknowledged the Receipt of Bills £2003. 6. 3 which
I now inform is a full Balance previous to the present Invoice
for which I return you my sincere thanks & am very respectfully
Yours much obliged & obedient Serv^t.

Mont of de United States
10th April 1804

The Treasurer is hereby directed to purchase & remit to Matthew Boulton by the first good opportunity Two thousand Nine hundred and Sixty seven Pounds, Seventeen Shillings and Seven Pence All in good Bills of Exchange, payable at 60 days sight, with a substantial Indorse, on account of Coffee Merchants purchased & received out the Mount from said Matthew Boulton. The said Bills to be indorsed to the order of s^r Matthew Boulton.

Chas. Townsend Esq^r

The Treasurer of
the Mount.

Beng^t: Rusk Esq^r
 Sir

Sto. near Birmingham
 February 9th 1804

I have'd your kind duplicate of my letter
 of the 28th Ult^o. Since which I have been favored with your
 return of the 16th Decem^r 1803 enclosing writings to Treasurer
 of same date on Sir Thomas Daring of London for £ 1500 & 1/2
 say One Thousand five hundred & Ninety pounds Eight Shillings & 1/2
 which from its maturity shall be paid to the Agent of the Mint of
 the United States for which I am obliged not doubting but as you
 can find opportunity you will avail yourself thereof to complete
 the Balance. I have enquired of Mr. Heymans respecting the
 Cartage on question who says that the Ship incurred the Expense
 by not being ready to load at the time appointed which occasioned
 the Ship to be returned back when that globe returned
 with which you have nothing to do; but resist the payment
 I am very respectfully

supplied

I received from the 5th M^{ts} on the
 10th inst. covering Bill drawn for Bill of Exchange on the
 Hamilton & Co. of Glasgow which was duly accepted &
 payable in London due March 21. for £655. 5. 5 viz September
 & thirty three pounds Eight Shillings & five pence which sum at
 maturity will be placed to the Mint of the United States against
 Blankets sent out to the amount of £5110. 14. 3 the Balance
 sh^{ld} be received as soon as possible having charge sent to advance
 for paper to supply a bill for our East India Company and
 also for the Government of Calcutta. Copper is at this time very scarce
 being scarce though better for this quarter viz Aug 1 to March 31
 1804 for the prospect of it being cheaper during the time, should
 under the arrangements with the subject of the change by the Queen of the
 America for exchange at Liverpool as I must demand for the

Y^r

Dearest

June 6. 1804.

I received your kind duplicate of my letter of the
 5th February. I have now to acknowledge your interest of the
 17th April concerning Stephen Gardner, of the 13th April as to say, I
 order from Baring & Co. London for £2569. 14. 3 by way Two thousand
 Nine hundred & Sixty Seven pounds Seven shillings eleven pence
 Sterling which sum is immediately shall be paid to the Credit of the
 Master of the United States and will balance the account of Gardner &
 Eng^d for which I am much obliged.

Copper is in the new the present quarter price

£146 per cwt. after Deduction according to the price of Ore at the latest
 Tickings I expect it will be £146 or £147.

I am just now very busy in receiving
 Spanish Dollars into Bank of England Dollars to pay for 5th of cash, £20000.
 I have already received & most part paid. I have also seven forth
 Bank of Ireland to pay as if Irish cash, they are struck without
 melting just as they are, the Blue & green than others the Spanish impression
 replaces it with our heavy portrait to distinguish from the Bank and
 purposely left off the Spanish impression.

With the utmost respect. I am for

Should you have Displeased of my letter
after 6 some years which I find the price of paper for this quarter
is fixed at £144 - but at Manchester there is not the least
chance of its being at £142.

A foreign paper for Ireland, in
contemplation, I am much surprised at being informed a plan is laid
in Ireland to send the whole off to America as soon as they
get into circulation, I cannot believe it - nor I presume
your government would, such happiness to your country I
woud be bringing copper does indeed as they will not read
Ireland under 25th for.

I am very respectfully
Yours
for Matthew Boulton
W.D. Brown

Dear Mr. Rush Esq
 Philadelphia
 Decr 20. 1864

For

I have now before me your statement
 of the 7th Vols. covering four Bills of Exchange amounting
 together to £2250. — It says Two Thousand Two hundred
 fifty Pounds Sterling which sum is at the credit of
 the Mint of the United States of America against my
 Invoice of Blankets for the Summit of £3762. 12. 11. for
 which I am much obliged.

On the 30th Sept. Copper rose here
 to £154 for Ton in London it is £168, have no doubt
 but at the 31st Inst. it will again rise here to £160 or 162.

Our Government are about concluding
 a paper currency for Ireland the Copper for which they will

not yet under £168 ^{Prison of} ^{high} ^{cost}

I mean I should be employed all
the powers of my work will be engaged for two years at
least. Should you want penwork in the mean time
if you send me the order I will do them if possible
being very respectfully

Yours most obedt Servt

 Septem 4th 1804

For As I expect the Letter and Services will be duly
 sent to go with the same. I have no time to enlarge
 nor am I certain of the price. Ordering duty to suit to be as high
 as I can in America I will write you fully particularly if any
 Variation. I am in the mean time, yours faithfully
 for John near Birmingham
 W. D. Mowbray

Elias Donlin Esq. John August 27th 1804
 Sir

I have at hand your order of the
 25th May ordering 25 Tons of Copper Platelet. Bankett is
 for 6 Cents. Weighing 7 lbs ea & the other half for refiners
 Weighing 3 1/2 lbs ea the same and more in hand & I hope will
 be at Liverpool to make the last Ships in all the month
 The present price of Copper £144 5/8 Ton
 as before quoted to Mr. Rush is very high, but on the 30th of
 September it will most certainly be £8 5/8 Ton demand

Our Copper rather than being able to
 make the Casks stronger for the same money wants an advance
 in price for such as already supplied; but hope he will not
 raise price the order.

I trust you will want of the Copper
 131 made

make me a greater resemblance than the last on the Interest
 of many cuts up all the profit besides the certainty of Advance
 in price in 2 mos. I do assure you I cannot buy any Tough
 Cattle at the time of the price I charge nor interest at all
 it being scarce at present. I shall take care to forward
 you with as

soon as along with the Olancho material when
 I return very respectfully
 Yours most truly

I enclose you have Duplicate of my Letter
of the 5th February I have now to acknowledge your return
of the 17 April coming Stephen Girard, Esq^r of the 13 April at 60
days Sight on Sir Isaac Daring & Co London for £2567, 17, 7 1/2
Say Two Thousand Five hundred & Sixty Seven pounds Seventeen
Shillings & Seven pence Sterling which sum at Maturity shall be
paid to the Credit of the Mint of the United States, & will Balance
the Account of Payments to this day & for which I am much obliged

Copper is in the mint the present quantity per
£144. If Tea for mismanagement according to the price of Tea at the
late Fickertings I expect it will be £146 or £148.

I am just now very busy in turning
Spanish Dollars into Bank of England Dollars to pay for 6/8
each, 1200000 I have already received & must part forward I have
also 800000 for the Bank of Ireland to pay for 6/8 each, they
are sent without melting just as they are the Silver gives them
space the Spanish impression & replaces it with our Kings Portrait
& a Britannia, fine Marks are purposely left of the Spanish impression
with the utmost respect. I am Sir your very Obedt Serv^t

for

I received your favor of the 5th ult.
with the 12th court arriving Robt Smith & Co Bill of exchange
on San Karillion Lest. No. of Glasgow, which was duly
accepted payable in London on March 25 for £652, 5. 5
viz Six hundred thirty three pounds Eight Shillings & 5.
which sum at maturity will be paid to the credit of
the United States of America that lent against Platelet
sent out other amounts of £5,110 16 s. the Delaware Ship
Placine as soon as possible having a large sum to advance
for copper to satisfy charges for our East India Company
ships for the Government of England. Copper is at this time very
scarce very dear. Bought cake for the Quaker. Jan. 16

Duplicate (Selling Room) Dec 3. 1806
 To R Patterson Esq^r
 Director of the Mint of the United States
 at Philadelphia

Sir,

Your favor of the 3^d Oct^r & its duplicate, reached me a short time since & I avail myself of the first packet to reply to your enquiries.

The expected advance in the price of Copper, as mentioned in my last, took place to the full extent; & indeed has, at one period since that date, been nearly \$200 p^{ton}; — a very considerable & rapid decline has, however, since occurred; & it may, at this time, be purchased upon the terms of my last supply to your predecessor.

After the very great & rapid fluctuations in this article, it is almost impossible to form any judgement of the rate at which it may be provided in the ensuing Spring: — if I may draw any inference from the actual state of the market, I should be induced to say, that the present price, or even a further depression, might be reckoned upon, unless any considerable alleviation takes place in the general state of our commerce with the Continent of Europe; in which case, it is probable that the price of Copper will be considerably raised.

Under these circumstances I am only
 assure

assure you, that in the event of being favored with your orders I shall use every exertion in my power to procure the supply of Copper upon the most economical terms; & if you have the goodness to fix the maximum price as the condition of the execution of the order, it may be either effected, or withheld, according to the state of the market at the time of its receipt.

My charges for the manufacture will be in all respects, the same as heretofore - but an advance of 10 each has taken place upon the books, which, of course, I must be under the necessity of adding.

There is not any alteration, within my knowledge, of the Government, or shipping charges, & as to that of insurance, it will necessarily be regulated by the circumstances of the times. There are now become so critical, and measures of so novel a description have been lately adopted by Governments, particularly affecting the properties of individuals, that I doubt not you will think this change in the relations of Nations a sufficient justification of the modification which I am about to propose in the terms of my reimbursement, viz, the payment to be made upon shipment of the blanks, by bill upon this Country at 60 days sight, & for the difference in the term of the credit, I shall allow a discount of 2% *per centum*.

Hoping

Hoping for the honor of your further correspondence

I remain
Sir,

Your faithful & obed^t
Humble Servant

W. Patterson Esq^r, Director
of the Mint of the United States
at Philadelphia

Sir,

Your favor of the 3^d Oct^r, & its duplicate, reached me a short time since, & I avail myself of the first Packet to reply to your enquiries.

The expected advance in the price of copper, as mentioned in my last, took place to the full extent; & indeed has, at one period since that date, been nearly \$200⁰ per ton; — a very considerable & rapid decline has, however, since occurred, & it may, at this time, be purchased upon the terms of my last supply to your predecessor. After the very great & rapid fluctuations in this article it is almost impossible to form any judgement of the rate at which it may be procured in the coming Spring. — If I may draw any inference from the actual state of the market, I should be inclined to say, that the present price, or even a further depression, might be reckoned upon; unless any considerable alteration takes place in the general state of our commerce with the Continent of Europe, in which case it is probable that we

the price of Copper will be considerably raised.

Under those circumstances I can only assure you that in the want of being favored with your orders I shall use every exertion in my power to procure the supply of Copper upon the most economical terms, & if you have the goodness to fix the maximum price on the completion of the execution of the order it may be either effected or withheld according to the state of the market at the time of its receipt.

My charges for the manufacture will be, in all respects, the same as heretofore, but an advance of ten pence each has taken place upon the blanks, which, of course, I must be under the necessity of adding.

There is not any alteration, within my knowledge, of the Government or shipping charges, & as to that of insurance it will necessarily be regulated by the circumstances of the times: — there are now become so critical, & numerous & so novel a description have been latterly adopted by Governments, particularly affecting the properties of individuals, that I doubt not you will think this change in the relations of Nations a sufficient justification of the modification which I am about to propose in the terms of my reimbursement, viz,

The payment to be made upon shipment of the blanks, by bills upon this Country at 60 days sight, & for the difference in the

term of the credit I shall allow a discount of 2 1/2 %

Hoping for the honor of your further correspondence I remain

Sir,
your faithful & obed^t
servant
Math^r Boulton

Alint. Office, Soho, August 21st 1807

Sir,

I wrote to you on the 5th inst., by the Ship Liverpool, and transmitted, at the same time, a bill of lading & a copy of the weights of 107 Casks of Planchets & half Planchets shipped on board the said vessel, together with an account of my charges thereon, as far as they could be then made out; - since which having been furnished with the particulars of the charges at Liverpool, & the insurance being also effected, I have now the pleasure to annex a full account, with duplicates of the weights & the bill of lading. - I am sorry to observe that, owing to the unhappyness from your side of the water, the premium of insurance had risen to 5 Guineas per Cent. 2 or 3 days previously to my ordering the sum of £1400 to be done; - the remaining £300 I reserved till the receipt of the bill of lading, & until such time the anxiety of the Underwriters having partly subvided the premium fell to 4 Guineas per Cent. This, however, could not be foreseen, & as the vessel was appointed to sail on the 8th, there was no time for deliberation.

I beg leave to annex a statement of the account between us, as it now stands, the balance of which £234.5.2 I hold at your disposal.

Should the political differences which at present menace the commercial intercourse between us, be happily accommodated, & you should have occasion for a further supply of Planchets in the ensuing spring, I beg the favor of you to apprise me of your occasion, & to furnish me with your limits as to the price of Copper, at as early

Robt. Patterson Esq.

Sir,

Immediately after the receipt of your favor of the 2^d March I was enabled to purchase, with a view to the execution of your order for 20 Tons of Blanchets, an adequate quantity of Copper at £142. 5s. per Ton, since which the average price of Ores at the Cornish Market has advanced, & a progressive rise of Copper may reasonably be expected to ensue.

From my present engagements with the British Government I find it will be out of my power to have the Blanchets ready for shipment before the commencement of July next, when I hope a favorable Ship will offer, & your instructions respecting the copy of Invoice &c. will be attended to.

I imagine you are not aware that Rolls are among the articles of Machinery the exportation of which is prohibited. I have, on several occasions, exported such Machinery, especially to St. Petersburg & Copenhagen, but express Acts of Parliament were previously obtained for those purposes. I beg leave to refer you, for your government, to the annexed pro forma invoice & remain very respectfully

Ben: Rush Esq:

Scho near Birmingham July 29th 1808

Sir

I have to acknowledge the receipt of your favors of the 26th Aug^r last year and 27th May of the present. The former came to hand at the end of Novem^r, and immediately upon the receipt of it I made application for the return of the premium for the double Insurance. After a long protracted correspondence and considerable demur on the part of the Underwriters, arising chiefly from the length of time which had elapsed since the effectuation of the first Insurance in May, of which we were not advised till the 26th Aug^r, 3 months afterwards, this in the usual intercourse between the countries intelligence of it might have been received in June. This object however in consequence of the high character of the House by whom the Insurance here was effected, was at length surmounted upon an explicit statement of the circumstances, by which the mistake was occasioned, & the Underwriters agreed to allow a return of the premium as noted in the subjoined Acct^t. I have stated the Acct^t upon two different principles & shall

leave it to the liberality of Mr. Patterson & yourself to decide upon the mode in which the settlement shall be made, observing only that the error was occasioned by the anxiety of my Clerk to have your property covered, without advising to the purport of a Mr. Patterson's letter which having come to hand so long previously, escaped his attention at the time.

Should you be in want of a further supply of Manchester, the present state of the Cotton market would enable me to make you a shipment upon much better terms than for a long time past. The Best Manchester at 107/- and the half Cents at 115/- per Ton free on board at Liverpool without Insurance.

I am

Sho, near Birmingham Dec 22. 1808

Sir, I am favored with yours of the 2^d October, by which I perceive the Director & yourself think the statement of account making the larger balance due from me to be founded on the most correct principle; — I shall acquiesce in your determination, though I was in hopes that when you were apprized of the reasons which occasioned the mistake in regard to the Insurance, some modification of my loss would have been admitted.

I observe your directions about a further supply of about 20 Tons of Cent Planets & I shall avail myself of the opportunity of any American Vessel that may offer after the 25. March next.

For some time after my letter of the 1st of July Copper remained tolerably steady, but has been rapidly on the advance these two last Months; — Ore having risen upwards of £30 ^{per} Ton.

I shall, however undertake to furnish 20 Tons of Cent Planets, as ^{per} former Invoice annexed, & to have them ready for shipping early in April, or probably at the latter end of March.

In regard to the allowance of Interest on the balance I beg to assure you that

W. Rush Esq^r
Philadelphia

I have not derived from it any advantage of that nature; nor do my Bankers ever consent to allow me interest upon temporary lodgments in their hands liable, like yours, to be drawn out without notice. — In order to make interest I must invest the amount expressly for that purpose, & at a risk. I trust, therefore you will be disposed to agree with me in thinking that I ought not to be called upon to allow interest on an unproductive balance; — or, at most, that the rate of such interest should not exceed 3%^t, considering the circumstances under which it remains with me.
